

Dear

Welcome back to the Mt. Diablo Chapter of ARMA! So glad you decided to renew. Let me know if you are interested in any director positions J .

On behalf of our Board of Directors and your fellow professionals in the East Bay, I would like to re-welcome you to our chapter. Your decision to become a part of our chapter indicates that you are a records and information management professional who is interested in interacting with your peers, from a wide range of industries, to learn and share ideas and concepts in the field.

I want to make sure you get the most value from your ARMA membership. You'll receive many national benefits, like your subscription to the Information Management magazine, the invaluable content for professionals at www.arma.org, or invitations to web seminars on topics that are as timely as they are informative. But, there's more to your membership than just the national benefits.

Your national benefits are only part of the total membership picture. We want to make sure you take full advantage of your local membership benefits as well... like our annual Spring Seminar, monthly meetings and the valuable education workshops presented by our colleagues on special topics.

Be sure to add <http://armamtdiablo.org/index.html> to your favorites. Click on the link and check out our Board Room, Contacts and Events (previous). We will resume our meetings in September 2015. Please visit our website and mark your calendar. Typically, we schedule them the fourth Thursday of the month, in Walnut Creek, CA. If you have any questions or want to discuss anything, feel free to contact me.

We look forward to seeing you at our monthly programs. Have a wonderful summer!

Sincerely,

Stacey English

ARMA-Mt. Diablo, Membership Director
